Transition of Hitachi Ink jet printer (: Main model)

1-Oct-06

(Version 1)

Hitachi Industrial Equipment Systems Co., Ltd.

1975 | 1976 | 1977 | 1978 | 1979 | 1980 | 1981 | 1982 | 1983 | 1984 | 1985 | 1986 | 1987 | 1988 | 1989 | 1990 | 1991 | 1992 | 1993 | 1994 | 1995 | 1996 | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 | 2006 | 2007

Dec-75 — Model **DP** (For Date print only)

Feb-77 — Model **JP** (Successor of DP)

Feb-79 — Model **P** (Control by 8 bit Micro processor, 1-4 print heads) (120,160, 220 micron diameter nozzle are available) (Pigment ink is available for print)

Jul-81 — Model **E** (Basic model of **S**, Restrictive function)

Dec-81 — Model **S** (1 print head, Standard model)

Jun-79 — Model **D** (High end model of P, With CRT monitor) (For special application, Data communication) (Pigment ink is available)

Oct-85 — Model **F** (Successor of **S**) (Function upgrade)

Dec-84 — Model **M** (Successor of D, For special application--To ALC,Big Roll paper etc.) (Available for Print head moving application, 1-4 print heads) (120 ,160, 220 micron diameter nozzle for print)

Jul-87 — Model **FX** (Successor of **F**, 1-2 print head) (Control by 16 bit Micro processor) (30, 60, 120 micron nozzle are available) (Pigment ink is available)

Jan-91 — Model **GX** (Successor of FX, 1-2 print head, Nozzle automatic washing, Automatic start-up) (40,65,120 micron nozzle are available) (Pigment ink is available)

Jan-94 — Model **HX** (Successor of GX, 1 print head, Automatic nozzle washing) (Automatic start-up) (40,65 micron nozzle are available)

Jan-98 — Model **KX** (Successor of HX, 1 print head) (Automatic nozzle washing, Automatic start-up) (40,65,100 micron nozzle are available) (Color LCD touch panel for operation & control) (Vast improvement on operation)

Jan-03 — Model **PX** (Successor of KX, 1 print head) (Automatic nozzle washing) (Automatic start-up) (40,65,100 micron nozzle are available) (Color LCD touch panel) (IP55) (CE, C-tick, UL) (Further improved ink circulation system) (White ink model selectable)

June-04 — Model PB (Basic model of PX-based) (Determinated specification) (65μm nozzle) (Monochrome LCD touch panel) (IP45) (CE, C-tick、UL) (Further improved ink

Apr.-06 — **Model PXR (Successor of PX) (1 print head)** (RoHs compliance) (TFT Color LCD Touch panel) (CE,C-tick,UL) (High speed model selectable) (White ink model selectable)

Model P

Model **E**

Model **F**

Model **FX**

Model **GX-E**

Model **HX-E**

Model **PX-D**

Model **PXR-D**

Model **D**

Model **S**

Model **M**

Model **GX-S**

Model **HX-S**

Model **KX-E**

Model **PB**
