Section 13 - DISPOSAL CONSIDERATIONS

Because waste materials such as liquid waste, paper towels used to Residual waste wipe it up, or empty containers are flammable combustible materials, the section on "specially controlled industrial waste(Flammable

waste oil)" from the Waste Management and Public Cleaning Law

(Waste Management Law) is applicable.

Either appropriately process in accordance with Waste Management and Public Cleaning Law, or commission a contractor licensed for transport or disposal of industrial waste requiring special management.

Do not let wastewater, etc. used for cleaning machinery or containers flow directly onto the groundor in to the culverts. For waste materials generated by wastewater treatment, incineration, etc. either carry out processingin accordance with the Waste Management and Public Cleaning Law and related laws and regulations, or commission a licensed vendor to do so.

When incinerating of waste materials, etc., do not use an incinerator without cleaning equipment, as harmful gas will be generated.

Clarify the contents of waste materials and entrust disposal to a waste disposal company.

Contaminated containe Empty containers should be treated as industrial wastes and not allowed to contain waste.
