Laver Section 13 - DISPOSAL CONSIDERATIONS Residual waste Because waste materials such as liquid waste, paper towels used to wipe it up, or empty containers are flammable combustible materials, the section on "specially controlled industrial waste(Flammable waste oil)" from the Waste Management and Public Cleaning Law (Waste Management Law) is applicable. Either appropriately process in accordance with Waste Management and Public Cleaning Law, or commission a contractor licensed for transport or disposal of industrial waste requiring special management.

Do not let wastewater, etc. used for cleaning machinery or containers flow directly onto the groundor in to the culverts.

Clarify the contents of waste materials and entrust disposal to a waste disposal company. Contaminated containe Empty containers should be treated as industrial wastes and not

allowed to contain waste.
