

General-Purpose Pumps

Land pump series

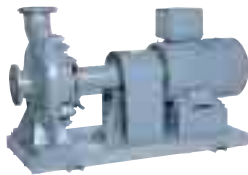

JD type mono-block pump
For water supply in buildings and factories
φ40~φ100, 0.25kW~11kW

JL type in-line pump
For circulating hot water
φ25~φ80, 0.25kW~11kW

JOVD type end suction centrifugal pump
For water supply in buildings and factories
φ40~φ100, 1.5kW~15kW

HOV type end suction centrifugal pump
For air conditioning (Especially high forced pressure application)
φ65~φ250, 0.75kW~160kW

DV type both-side suction centrifugal pump
For waterworks and factories
φ200~φ350, 11kW~250kW

Stainless pump series

JDP type stainless monoblock pump
Rustless pump for water supply to buildings and for setup of general industrial equipment
φ32~φ50, 0.75kW~3.7kW

JLP type stainless inline pump
Rustless pump for circulating cool and hot water
φ32~φ50, 0.25kW~1.5kW

NJP type stainless multi-stage centrifugal pump
Rustless pump for water supply to buildings
φ40~φ80, 1.5kW~11kW

CRN type stainless vertical inline pump
Rustless pump for water supply to buildings
φ40~φ100, 5.5kW~45kW

Clean water submersible pump series

JUP type stainless submersible centrifugal pump
Rustless pump for water supply to buildings
φ40, φ50, 1.5kW~7.5kW

JU type submersible centrifugal pump
For water supply in buildings and factories
φ40~φ100, 0.4kW~45kW

Sewage pump series

UNP type submersible sanitary sewage pump
For draining sanitary sewage from purification tanks, water from agricultural, gardening and nursery pools or from water tanks
φ40~φ80, 0.25kW~3.7kW

USE type submersible waste water drain pump

For draining waste water from small building
φ40~φ100, 0.25kW~3.7kW

UBE type submersible sanitary sewage pump

For draining sanitary sewage
φ40~φ100, 0.25kW~3.7kW

Fire extinguishing pump unit

US type fire extinguishing pump unit

For indoor fire hydrant facilities (US-HA)

For sprinkler facilities (US-HT)
φ40~φ200, 1.5kW~132kW
