

Switches and Breakers

Magnetic starters and contactors

H series

Electromagnetic contactors

H150C

Non reversible type : 10A to 800A frames
Reversible type : 10A to 800A frames

Electromagnetic starters

H65C-T

Non-reversible type : 10A to 600A frames
Reversible type : 10A to 600A frames

Electromagnetic starters with enclosure

Non-reversible type : 10A to 600A frames
Reversible type : 10A to 600A frames

Contactors relays

X4

3 contacts to 8 contacts

Thermal overload relays

TR80B-1E
TR80B-2E

1E : Overload and lock protections type
2E : Overload, lock and phase-failure protections type

HK series

Electromagnetic starters

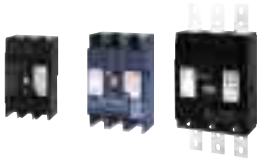

HK20-T

Non-reversible type : 10A to 50A frames
Reversible type : 20A to 50A frames

Molded case circuit breakers

F series (Standard)

30A to 4000A frames

F-50FC

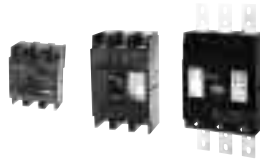

FX225

FX600

New pair series

S series (Economical)

30A to 800A frames

S-30E

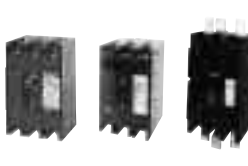

SXK225

SX600

New pair series

L series (High interrupting capacity)

50A to 800A frames

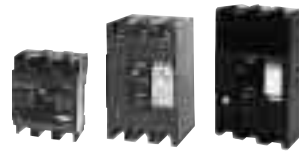

L-50E

L-100E

L-400E

M series (Motor breaker)

30A to 225A frames

MS-30E

MS-50SB

MS-100SB

B series

(for distribution panel)
50A to 100A frames

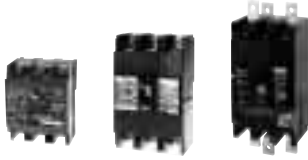

B-50E

PB-50E

Earth leakage circuit breakers

E series (Standard)

30A to 800A frames

EB-50E

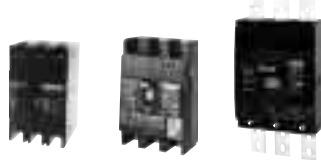

EXK225

EX400B

New pair series

R series (High interrupting capacity)

50A to 1200A frames

RX50

RX225B

RX600B

New pair series

Earth leakage relays

Standard five types
Small two types

Air circuit breakers

1250A to 4000A frames

AN12 to AN40
